Released: **October 16, 2026**

2026 Yukon River Salmon Fall Fishery Announcement #28
Reminder: Return 2026 Salmon Fishing Permits

Districts Affected: Upper Yukon Area

Yukon Area subsistence and personal use salmon fishing permits expired on October 15 and harvest reporting is due by **October 25** for the permit areas listed below. Even if you did not fish or did not catch any fish, a harvest report must be completed.

- **Yukon River: Rampart, Yukon River Bridge, Circle, and Eagle**
- **Tanana River: Subdistrict 6-A (Manley), Subdistrict 6-B (Nenana/Minto), and Personal Use in Subdistrict 6-C (Fairbanks/North Pole).**

A subsistence fishing permit is required to fish for all species year-round in the Yukon River permit areas listed above. If you plan to continue subsistence fishing in the remainder of the year, please call the Fairbanks office at (907) 459-7274 to report preliminary harvest and request a permit extension.

Harvest reports can be completed online at www.adfg.alaska.gov/harvest by entering your daily harvest. For permits with a weekly reporting requirement (Tanana 6-B and 6-C), remember to select the **'I'm Finished, Submit Harvest Report'** button after entering your daily harvest to close out the permit. If you did not fish this season, select the **'Click here to mark permit as not fished'** button.

Alternatively, reporting can be completed by returning your permit to ADF&G 1300 College Road, Fairbanks, AK 99701. Failure to report harvest information may result in denial of a household permit next year.

Thank you for your cooperation in managing Yukon Area fisheries resources.
